### **ASPECT Response Support Efforts to the ITC tank fires in Deer Park, Tx. Region 6 –**

The ASPECT aircraft and scientific reach back team have been supporting the Region 6 response efforts to the International Terminal Corporation (ITC) tank fires. The initial deployment of the team occurred on Sunday March 17<sup>th</sup>, 2019. The ASPECT system has flown every day that weather condition have permitted good data acquisition since the 17<sup>th</sup>. The Region response program has requested that the ASPECT system remain on station for the ITC response through April 14<sup>th</sup>, 2019. There have been seventeen data acquisition flights since the 17<sup>th</sup>. The number of flight hours is over forty. The Region has been processing PR's to fund the response since the initial deployment.
